**PURPOSE OF THE UNIT STANDARD**

Competence at this level will enable learners to discuss the style and purpose of the text, both implied and stated meanings, themes as well as plot, the author's point of view and the context in which the text arose. They can use literature as a base to study and make judgements about human and social issues. They are aware of the drama and power of language.

As a creative representation of life and experience, literature raises important questions about the human condition, now and in the past. Learners` increasing ability to reflect on their experiences and to compare them with others` is encouraged, enhancing their capacity to deal with a selection of texts that explore moral, psychological and philosophical issues.

Learners credited with this unit standard can:

- extract meaning from a variety of literary texts
- identify and explain features that influence response to texts
- produce texts in response to literary texts

### **LEARNING ASSUMED TO BE IN PLACE AND RECOGNITION OF PRIOR LEARNING**

The credit calculation is based on the assumption that learners are already competent in terms of the following outcomes or areas of learning when starting to learn towards this unit standard: NQF Level 2 unit standards.

## **UNIT STANDARD ESSENTIAL EMBEDDED KNOWLEDGE**

The following essential embedded knowledge will be assessed through assessment of the specific outcomes in terms of the stipulated assessment criteria:

Learners can understand and explain that language, when used figuratively or for storytelling, can be used to create an illusion of reality. Learners apply their knowledge of language and literature features and conventions to an awareness of how fictional texts differ from factual ones.

Candidates are unlikely to achieve all the specific outcomes, to the standards described in the assessment criteria, without knowledge of the stated embedded knowledge. This means that for the most part, the possession or lack of the knowledge can be directly inferred from the quality of the candidate`s performance. Where direct assessment of knowledge is required, assessment criteria have been included in the body of the unit standard.

*This information shows the current accreditations (i.e. those not past their accreditation end dates), and is the most complete record available to SAQA as of today. Some Quality Assuring Bodies have a lag in their recording systems for provider accreditation, in turn leading to a lag in notifying SAQA of all the providers that they have accredited to offer qualifications and unit standards, as well as any extensions to accreditation end dates. The relevant Quality Assuring Body should be notified if a record appears to be missing from here.*
