Phase 1 - OQ	8					15 18 29 1 12																														9				15 18 29 2 13															14 weeks																																		
Phase 1-Legacy	8																																			1				20															23								13				12 weeks																						
Phase 2 - OQ																																								26															15 18 29 1 13				16 weeks																														
Phase 2-Legacy	8					8															15				14															1				30															14				13				9 weeks																						
Phase 2 - OQ																																																																														12 weeks											
Phase 3-Legacy	15					8																														13				5																			16															8				23				15				8 weeks			
Phase One										Phase Two										Phase Three																																																																					
KM-01: Basic Engineering theory - 10 weeks										KM-02: Fitting Theory - 12 weeks										PM-05: Do fault finding on Mechanical sub assemblies and machines - 4 weeks																																																																					
PM-01: Fabricate simple components or work pieces using basic hand skills and hand tools - 2 weeks										PM-03: Disassemble, clean and inspect mechanical sub-assemblies - 2 weeks										PM-06: Do fault finding on Mechanical sub assemblies and machines - 4 weeks																																																																					
PM-02: Fabricate components or work pieces using power tools or machinery - 2 weeks										PM-04: Replace components and assemble mechanical sub-assemblies and machines - 2 weeks										PM-07: Install and commission mechanical sub-assemblies and machines - 4 weeks
